

Raw Materials Company Inc. Environmental Policy

Raw Materials Company Inc. is involved in hazardous waste transporting, processing, and storage and occupies two facilities; one located in Port Colborne, Ontario and one in Buffalo, New York. Raw Materials Company Inc. is committed to providing quality service to clients.

Raw Materials Company Inc. (RMC) is committed to:

- Compliance with all applicable laws, regulations, compliance obligations, and when required, compliance with other client requirements and policies.
- Influencing global perspectives and practices of battery collection and recycling that reflects economic and environmental excellence.
- Continual improvement of the Environmental Management System to enhance environmental performance, and protection of the environment, including pollution prevention through:

Waste Management

RMC staff strives to reduce waste generation, manage waste material in a manner that eliminates the potential for environmental contamination, and divert material from landfills.

Prevention of Environmental Contamination

RMC staff are committed to addressing all areas of operations where there is a potential for environmental contamination and implementing the appropriate environmental policy, prevention and emergency procedures.

Spill Control and Emergency Response

RMC staff ensure that all accidents and emergency situations are identified and remedied and are committed to continually improving current procedures to effectively prevent and/or mitigate contamination of the natural environment.

Employee Environmental Awareness

RMC staff is encouraged to be considerate of the environment both during and after the workday. We strive to increase environmental awareness of all employees by incorporating the environment into all operations within the company.

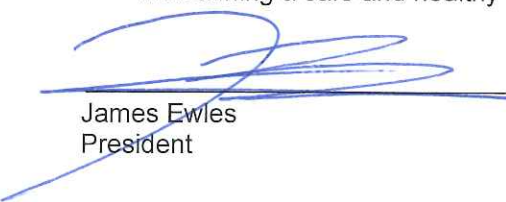

Resource Conservation

RMC staff is proud to be involved in the recycling industry and will seek out new technologies and business ventures that promote resource conservation.

Objectives and targets are established based on these commitments and the company's environmental performance is evaluated for effectiveness at Management Review.

Raw Materials Company Inc. is a community-oriented workplace committed to:

- Considering internal and external issues within the context of the company
- Providing the interested parties with the environmental policy.
- Contributing to environmental programs within the community.
- Maintaining a safe and healthy workplace for all employees and the public.
